

bamboi® Toilet Paper compact

100% bamboo 2-ply

Product sheet

Bamboi Maxi Toilet Paper 100 m combines user comfort with low environmental impact. The toilet paper is made from 100% unbleached bamboo fibres, a rapidly renewable raw material known for its strength, softness and natural antibacterial properties. The 2-ply quality provides high absorbency and a pleasant user experience. With a roll length of over 100 meters, fewer replacements are needed, making maintenance more efficient. The rolls are suitable for professional sanitary facilities such as offices, healthcare facilities, schools and public buildings. Produced according to internationally recognized quality, environmental, energy and safety standards.

Description

Bamboi Maxi Toilet Paper 100 m is made from 100% unbleached bamboo fibres and offers a comfortable, hygienic and sustainable solution for sanitary facilities. The 2-ply quality is soft, strong and highly absorbent. Thanks to the long roll length, fewer roll changes are required and maintenance costs decrease.
