

Paper Towels Z-Fold Cellulose 2-Ply

Product sheet

Paper Towels Z-Fold Cellulose 2-Ply for Optimal Drying Comfort These high-quality Z-fold paper towels made from 2-ply cellulose combine excellent moisture absorption with pleasant user comfort. Thanks to the smart Z-fold design, the paper towels are dispensed one by one, providing a hygienic and efficient solution in high-traffic sanitary facilities. The soft cellulose quality feels comfortable and dries hands quickly and effectively. This makes the paper towels suitable for various applications in offices, healthcare facilities, schools, public buildings, sports facilities and hospitality venues. Due to controlled dispensing, unnecessary consumption is limited, which can help reduce operating costs and waste. The paper towels are suitable for use in various Z-fold paper towel dispensers and are a reliable choice for organizations that value hygiene, ease of use and quality.
