

Waste Bags T20 61 x 80 cm Grey / 25 x 20 Pieces

Product sheet

Waste bags T20 60 litres are designed for collecting light to medium waste in professional environments. The bags are made from HDPE material and offer good tensile and puncture resistance despite their lightweight design. With a size of 61 x 80 cm, they fit in the most commonly used 60 litre waste bins. The grey colour ensures a neat appearance and the packaging of 25 rolls of 20 bags makes them suitable for offices, schools, care facilities, catering and public

Description

Waste bags T20 60 litre offer a practical solution for daily waste collection. The grey HDPE bags combine good puncture resistance with low material consumption. Thanks to the 61 x 80 cm format, they are suitable for standard waste bins.
