

Adjustable Glove Dispenser Duo Stainless Steel, MQDHSDE

The MediQo-line universal glove dispenser Duo offers a professional and durable solution for contactless dispensing of disposable gloves. This robust wall-mounted holder is made entirely from high-quality stainless steel (V2A). This makes the dispenser excellent for withstanding intensive daily use and chemical disinfectants. The smooth surface guarantees quick and thorough cleaning, which is essential in medical and industrial environments where strict hygiene protocols apply. What makes this dispenser unique is the built-in stainless steel clamping bracket with spring mechanism. This system automatically adapts to the thickness and format of your glove boxes. You are therefore no longer tied to one specific brand or fixed supplier. Because this dispenser offers space for two boxes at once, you can easily offer different sizes (such as M and L) or different materials...

Description

The MediQo-line Duo glove dispenser made from high-quality stainless steel is the ideal hygienic solution for any work environment. Thanks to its smart, universally adjustable spring system, virtually every brand of glove box fits perfectly in the holder. With space for two boxes, you can easily switch between sizes or types. Perfect for healthcare, hospitality and industry.
