

DC Mix Cabinet loose 2 litre kit

Product sheet

For the storage and use of highly concentrated cleaning agents, safety is the top priority. With a cabinet from Dosing Care you are assured of optimal safety, without any risk of overdosing. This cabinet is suitable for the storage of a maximum 2.5 litre can of cleaning agent or highly concentrated product. The concentrate is precisely drawn from the can by the DC Mix dosing system, so that only the perfect amount of cleaning agent together with the correct amount of water in
