

DCMini - 300 mm aluminium outlet with 30 ml pump

Product sheet

Waste of washing products is not only a burden on the environment, it also costs you a lot of money. With the award-winning dispensers from Dosing Care, you choose an environmentally friendly, safe and cost-effective dispenser. The DC1 Kit is a simple dosing pump with which you can easily dispense cleaning products directly from the packaging into the sink. Don't forget the wall-mounted hanging system, with which you can store the cans in a hygienic and organized manner.
