

Drip Tray 500 ml, SH E 26

Product sheet

In a clean and tidy sanitary room, you do not want to be confronted with soap residue. You can prevent this by using the MediQo-line drip tray. By placing the drip tray under the opening of the soap dispenser, soap residue is easily caught. You can install the drip tray by sliding the stainless steel holder around the soap dispenser. The tray will then fall directly under the opening of the dispenser. With the drip tray
