

Jumbo Roll Dispenser midi Stainless Steel, PR2787CS

Product sheet

During peak hours at your company, a considerable number of visitors pass through your sanitary facilities. That's not a problem at all, as long as the toilet paper supply remains at the right level. With this jumbo roll dispenser, your visitors will never be confronted with an empty roll, even during peak hours. The end of the roll exits the dispenser via the bottom, where the paper can be easily removed along the tear-off edges. This allows your visitor to use the paper as needed
