

Paper towel dispenser mini plastic white, PQMiniC

Product sheet

If you value high standards of hygiene, you cannot rely on cleaning staff alone. It is important that employees or visitors can clean up spilled (liquid) substances themselves and dry wet materials. With this wall-mounted paper towel dispenser, you will never run out of cleaning paper. If you do not use the paper towel dispenser intensively but do not want to be without it, this dispenser for mini paper towel rolls is a good option. Paper towel rolls with a diameter of up to 144 mm can be inserted.
