

Soap Dispenser 400 ml Plastic Black, PQBS soap4

Product sheet

When designing the PlastiQline sanitary accessories, we always seek the balance between form and function. With their drop on the front and rounded lines, the soap dispensers look representative. But they are also extremely functional. This soap dispenser holds almost half a liter of cleaning agent. You have the choice of what to refill the bottle with: alcohol gel, liquid soap, lotions or cream. This flexibility is just as characteristic of the PlastiQline soap dispensers
