

Soap dispenser 400 ml plastic white, PQSoap4

Product sheet

When designing the PlastiQline sanitary accessories, we always seek the balance between form and function. With their droplet at the front and rounded lines, the soap dispensers look representative. But they are also extremely functional. This soap dispenser holds almost half a litre of cleaning product. You can choose what to refill the bottle with: alcohol gel, liquid soap, lotions or cream. This flexibility is equally characteristic of the PlastiQline soap dispensers
