

Soap/Disinfectant Dispenser alu 1000 ml long lever, TLS 26 A/25

Product sheet

This soap and disinfectant dispenser can be used for liquid soaps, hand disinfectants and lotions. Thanks to the special long stainless steel operating lever, the dispenser is easy to operate with the elbow. The dispenser features a replaceable stainless steel dosing pump and comes standard with a refill bottle. The dispenser is autoclavable, i.e., fully sterilizable, which destroys living microorganisms such as bacteria, viruses, algae and their spores.
