

Soap/Disinfectant Dispenser alu 500 ml long lever, ELS 26 A/25

Product sheet

This soap and disinfectant dispenser can be used for liquid soaps, hand disinfectants and lotions. Thanks to the special long stainless steel operating lever, the dispenser is easy to operate with the elbow. The dispenser features a stainless steel replaceable dosing pump and is supplied standard with a refill bottle. The dispenser is autoclavable, meaning it can be fully sterilized, destroying living microorganisms such as bacteria, viruses, algae and their spores. One
