

Spray Dispenser 1500 ml Stainless Steel, DJS0033CS

Product sheet

Good hygiene is crucial. Especially in rooms where guests change at a rapid pace. The choice of an alcohol spray dispenser from Mediclinics is therefore obvious. Even if you choose this spray dispenser primarily for its practical use, the design must also meet the highest design standards. Something the designers of this dispenser clearly understood. The sleek stainless steel housing with beveled edges is a beautiful addition to any tastefully appointed sanitary room.
