

Toilet Paper Dispenser 2 Rolls (Cap Roll) Stainless Steel afp-c, WIN TR2S SAL

Product sheet

The standard 2-roll holder is a well-known phenomenon, but do you also know what a cap roll dispenser is? Cap roll dispensers are generally less well known. The rolls are wound tighter, so more paper is available per roll and have caps on both sides of the tube. Thanks to the automatic toilet paper switching, the 2nd roll descends automatically as the bottom roll becomes emptier. Due to the space for the 2nd roll, you can refill the toilet paper at set times. Also
