

Toilet Roll Dispenser 2 Rolls Stainless Steel, QTR2 SSL

Product sheet

Nobody wants to wait for the last sheet of toilet paper. With the Qbic-line stainless steel 2-roll dispenser, you ensure that visitors always have a spare roll available, without compromising the appearance of your sanitary facilities. This stylish and compact dispenser has been specially designed for toilet facilities with low to medium visitor frequency. The robust stainless steel housing and the characteristic Qbic-line design combine durability with a professional appearance.

Description

The Qbic-line stainless steel 2-roll dispenser ensures that a spare roll is always available. Thanks to the automatic roll change, the second roll is immediately released as soon as the first one runs out. The robust stainless steel housing combines a modern appearance with durability. The large Q cutout allows you to easily check the contents. Ideal for toilet facilities with low to medium visitor frequency and suitable for two standard toilet rolls up to Ø 140 mm.
