Hair dryer black/chrome, Swiss Steel Master 2100 Push

Product sheet

The Valera Swiss Steel Master 2100 Push is a professional hair dryer with a chrome-plated steel housing. With 2100 watts and an AC Performance Light motor, the device delivers a powerful air stream and efficient drying result. Six combinations of air speed and temperature allow adjustment to different hair types and styling preferences. The ion generator helps reduce static electricity and supports a smooth, well-groomed result. The ultra-thin blow nozzle is suitable for targeted blow-drying and the spiral cable provides freedom of movement. The removable metal filter makes cleaning easy. The push switch and thermal protection support safe use. The solid black-chrome finish is suitable for intensive use in hotels, wellness facilities, changing rooms and professional sanitary areas.
