

Loose Wall Bracket 55l Waste Bin

Product sheet

The loose wall bracket for 55-liter waste bins is an original replacement part from PlastiQline. With this mounting bracket, you can securely attach your waste bin to the wall, freeing up floor space and making the space easier to clean. This wall bracket was specifically designed for PlastiQline's 55-liter waste bins and provides reliable and stable mounting. Ideal when an existing bracket is damaged or needs to be replaced. By replacing only the wall bracket, you don't need to renew the entire waste bin. This reduces maintenance costs and extends the lifespan of the existing waste bin. A practical solution for sanitary facilities, care facilities, schools, offices and public buildings.
