

Loose wall bracket white 23 liter + 43 liter waste bins

Product sheet

The loose wall bracket from PlastiQline is specially designed for waste bins with a capacity of 23 and 43 liters. With this original wall bracket, you can easily and securely attach your waste bin to the wall, leaving valuable floor space free and making the sanitary area easy to clean. This replacement wall bracket is ideal when the existing bracket has been damaged or needs to be replaced. The white design seamlessly matches the associated PlastiQline waste bins and provides a neat, professional appearance. By using an original spare part, you are assured of a good fit and reliable installation. A practical solution that allows you to extend the service life of your existing waste bin without purchasing a completely new waste bin.
