

Open Waste Bin 30 Liters Stainless Steel, QWBO30 SSL

Product sheet

A waste bin is designed to collect waste in a space. Therefore, it is important that waste can be easily disposed of and the waste bag can be changed quickly. This is precisely where the open stainless steel waste bin from Qbic-line, with a capacity of 30 liters, excels. The waste bin is equipped with a bracket. The bag is thus hidden from view, but very quickly replaceable. Easy for the facility service. Do you want a stainless steel waste bin in sanitary or other rooms
