

Open Waste Bin 80 Liters Stainless Steel, PP1080CS

Product sheet

Your guests may only spend a short time in your sanitary facilities, yet this visit leaves a lasting impression. The stainless steel waste bin contributes to an optimal comfort experience. Visitor flows often experience peak times within a company. Even at that moment, you want your sanitary facilities to have sufficient capacity to handle these visitor flows. With a generous capacity of 80 liters, this waste bin provides plenty of space to manage waste streams even during peak hours
