

Open waste bin 80 liters white, PP1080

Product sheet

A flawless appearance makes your sanitary area extra attractive. Especially in industries where high hygiene standards are required. The sleek white line from the Mediclinics series is therefore frequently used in medical and business environments. This open waste bin shows how much space is available. The generous capacity of over 80 liters handles virtually all waste streams throughout the day. Should the bin become full, changing the bag is quick and easy by removing the full bag
