

Waste Bin 20 Liter Knee Operation Plastic White, PQKBL

Product sheet

In an environment where hygiene is essential, the PlastiQline plastic waste bin is indispensable. Thanks to the ingenious knee operation, the transmission of bacteria via hands is a thing of the past. In hospitals or care facilities, hygiene plays an essential role. The transmission of bacteria must be prevented at all costs. With the PlastiQline plastic waste bin, fully operable with the knee, you prevent unwanted hygienic contamination. The operation is simple: the hinged lid opens
