

Waste bin 30 liters stainless steel, QWBC 30 SSL

Product sheet

Waste bins are increasingly being mounted on the wall. The advantage? You can easily clean the floor around and under the waste bin. A good reason to choose the 30-liter stainless steel waste bin from Qbic-line. This model is equipped with a top with a so-called swing lid. The hinged lid makes it very easy to dispose of waste. To be honest: that's not the only reason why this closed waste bin is used. It is the beautiful Qbic-line design that makes the waste bin
