

Waste Bin 42 Liters Swing Plastic White, PQSA43

Product sheet

The PlastiQline plastic waste bin with swing lid, 43 liters, is a practical solution for sanitary rooms, offices, schools, and care facilities. Thanks to its generous 43-liter capacity, the waste bin is suitable for locations with average to high visitor traffic. The swing lid closes automatically after use, keeping waste out of sight and maintaining a tidy appearance of the room. Moreover, the closed system contributes to a hygienic environment. The lid is easily removable, making waste bag replacement quick and efficient. This waste bin is made from sustainable plastic and can be placed freestanding or mounted on the wall using the included mounting bracket. This way, the waste bin offers maximum flexibility for any sanitary room.
