

Waste Bin 9 Liter Stainless Steel, QWBC9 SSL

Product sheet

For waste such as used tissues, a neat and tidy appearance is important. Especially when you mount a closed waste bin, where your guests cannot see the waste. Such a closed waste bin is the stainless steel waste bin from Qbic-line with a capacity of 9 liters. A modest waste bin that takes up relatively little space. Users can throw their waste through the flap lid, which then automatically closes again. A comfortable solution. Design your sanitary area with the cubistic
