

Swing up bar stainless steel

Swing up bar stainless steel, BG0800CS

If you consider hospitality of paramount importance, you provide the right facilities for all your visitors. That also means a good and safely equipped disabled toilet. Setting up a disabled toilet requires specialist equipment. A practical example is the so-called Swing-up bar. The swing up handles or bars help your client or visitor to get up easily in the washroom. The specially integrated safety system ensures that the bar can not fall down during use. In addition, you can mount the system to the wall quickly and firmly. The MediQo-line Swing-up Bar meets all safety requirements required by the government. Looking for a practical and useful addition to your disabled toilet? Ask now the quote for the MediQo-line Swing-up bar.
