

Wall/floor grab bar with extra bar-left stainless steel

Grab bar wall to floor with extra support point left stainless steel, BSI020CS

Furnishing a washroom in a medical environment requires specific accessories. The stainless steel grab bar - with extra support - gives your clients more control over their use of the toilet. With the MediQo-line stainless steel grab bar you offer your clients an extra support during the use of the toilet. The elongated grab bar handle is mounted both to the wall and into the floor. That way the grab bar provides sufficient firmness to support your client during the visit to the toilet. Looking for a strong grab bar for your clients? Now ask the quote for the stainless steel grab bar from wall to floor with additional support on the left.
