

2rolls dispenser (system)

Stainless steel AFP-C 2rolls dispenser for system rolls, WIN TR2S SAL

The standard double toilet roll holder is a well-known phenomenon, but are you familiar with system roll dispensers? System roll dispensers are generally less well-known. System rolls are rolled more tightly to fit more paper on a roll, and they have plastic inserts on each side of the core. The toilet roll changing mechanism makes the second roll lower automatically as the bottom one is used up. The space available for the 2nd roll lets you refill toilet paper at fixed times.
