

2rolls dispenser plastic (system rolls)

2rolls dispenser plastic with metal innerwork for system rolls, PQSDuo

When furnishing your sanitary room you take the wishes of your potential users into account. That may be a good reason to choose a dispenser for 2 rolls with plastic insert. Is one roll used then automatically it is replenished by the second one. The visitors to the toilet do not have a last roll in their hands, just like that, with the dispenser for 2 rolls with plastic insert. You change the rolls yourself. Actually, you can only do it yourself as you need the special PC key for it. That way you prevent (dis)assembling work. Curious about the prices and features of this plastic toilet roll dispenser?
