

Waste bin with knee opening 8 litre plastic

Waste bin 8 litre with knee opening plastic, PQKBS

Hygiene plays an essential role in hospitals and care institutions where the transfer of bacteria must be prevented at all costs. When using the PlastiQline Plastic Waste Bin - fully knee operated - you will prevent any unwanted unhygienic contamination. It's very simple; the lid opens as soon as you press your knee against the bin. Once you have put the waste in the bin and stop pressing against it, the lid will automatically close. How valuable is optimal hygiene to you? Request a quote for the PlastiQline Plastic Waste Bin!
