

Off-the-floor hanging system

Off-the-Floor hanging system for different dosage systems, OFHS

You would want the floor of a highly frequented area to be as clear as possible because tripping over a can with highly concentrated cleaning detergents can have far-reaching consequences. These types of tripping accidents can be easily prevented by using the Dosing Care of-the-floor hanging system. This system was specifically developed for hanging industrial detergent cans of up to 10 litres. You can place the cans near the corresponding dosing systems to ensure that the floor surface remains as clean and orderly as possible. The system is provided with a strong lever, an adjustable tube holder and robust stainless steel hook, ensuring the safety of both your detergent cans and your staff. Does a tidy floor appeal to you? Then the Hook/Of-the-floor hanging system would be the system to go for. Request a quote here.
