

Dosing unit DC Concept Bucket - POUCH version

Dosing unit with POUCH connection, DC Concept Bucket Pouch

Whether you use surface cleaning agents, high concentrate washing-up liquids or floor cleaner detergents, when using the Dosing Care Dosing Unit Concept you will always be ensured of safe, ecological and cost-effective processing. There is a reason why this Dosing Care Dosing Unit DC Concept Bucket is very popular within the cleaning industry. This manually operated dosing system is easy and very safe in use and will only provide an environmentally-friendly amount of cleaning detergent. A combination which has convinced many users. The unit can be easily operated by pulling and pushing the lever. Once used, the dispenser cannot be used a second time within a time frame of 15 seconds until the green indicator has returned to its original position. This tool prevents a harmful and expensive overdose. If a safe, ecological and cost-effective processing of cleaning agents appeals to you, then request a quote for the Dosing Care Dosing Unit DC Concept Bucket - POUCH variant.
