

DC Shot Bottle

Dosing Unit, DC Shot Bottle

Cleaning windows, scrubbing tables or floors, all this requires only one thing, a balanced amount of cleaning concentrate. With the DC Shot Bottle and its adjustable dosage you will always have the right amount of cleaning detergent at hand. The DC Shot Bottle is an innovative dosing system specifically developed for the spray bottle. The system comes with a black push button that allows you to dose the desired amount of cleaning concentrate into the bottle in one go. Afraid that you may overdose? Don't be! The DC Shot Bottle is fitted with a safe and built-in flexible delay function. This will ensure that a next dose is only possible once the green indicator has returned to its original position. The green dosing ring enables you to easily set the dose (between 5 ml and 30 ml). If you think that the DC Shot Bottle could do well within your business, request a quote here.
