

DC Shot Bucket

Dosing Unit, DC Shot Bucket

In the professional cleaning industry it does require some knowledge to create suds. Particularly when dealing with highly concentrated washing detergents or chemicals. The Dosing Care manually-operated system allows you to fill your bucket with cleaning detergents in a safe, quick and sustainable way. The Dosing Care Shot Bucket system enables the easy dosing of the exact amount of concentrated chemicals in your bucket or sink. Depending on the type of chemicals you can choose between various dosing amounts. The bucket version comes with a special tube that opens directly into the bucket ensuring you of the safe transfer of chemicals at all times. Would you be interested in the Dosing Care Shot Bucket?
