

Baby changing station horizontal stainless steel

Baby changing station horizontal stainless steel, CP0016HCS

Many people with babies and young children will be grateful to see a baby changing table in the sanitary facilities. In addition to convenience for parents, safety and hygiene are also important when it comes to small children. The Mediclinics baby changing table is made of bacteria-resistant plastic and has Biocote® antimicrobial additive. The changing table is supplied with a lockable dispenser for changing liners and is equipped with nylon safety straps. The table is equipped with convenient hooks to keep your personal belongings close and at hand. Maximise convenience by adding a pictogram to show there is a baby changing table available in the room. Want to make visitors with young children happy? Request a quote now.
