

4rolls dispenser (standard) SMART-READY

Stainless steel 4rolls dispenser for standard rolls, TTU 4 E ST

Until the moment that your guests are confronted with the very last piece, toilet paper has little value. At that moment, however, it becomes a top priority. The 4-roll holder of SanTRAL prevents this problem from ever happening. With a supply of four rolls your guests will never run without. The contemporary stainless steel housing, which is typical for the SanTRAL line, elegantly hides a good stash of toilet paper. Your facilities department can easily keep track of the quantity using the viewing window on the front of the toilet roll holder. The Santral product line has metamorphosed and now features, after further development, numerous new and improved functions resulting in an entirely new concept; SanTRAL® Plus! SanTRAL® Plus can be retrofitted to Smart modules at any time. Connected dispensers transmit their fill levels and usage data to the cloud. You can use a web app to optimise refill cycles and ensure your sanitary facility is always fully filled. The elegant and minimalist design fits perfectly into any sanitary facility thanks to the six modern colour finishes (Steel Touch, Arctic White, Midnight, Copper Rose, Oslo Blue, Slate Grey). Do you want to make sure that there is always sufficient toilet paper? Then request a quote for our SanTRAL Stainless Steel Toilet Roll Holder, 4 rolls.
