

Waste bin closed 30 litre

Stainless steel waste bin 30 litre closed, QWBC30 SSL

Bins are mounted on the wall more and more often. The advantage? The floor around and under the bin can be cleaned easily. A good reason to choose the stainless steel Qbic-line 30 L bin. This model features a top with so-called swing lid. The hinged lid makes it very easy to deposit waste. Fair is fair: that is not the only reason why this closed container is used. It is the beautiful Qbic-line design that distinguishes the bin from other bins aesthetically too. Of course you can combine this closed container made of stainless steel with other Qbic-line accessories. Ask for a quotation immediately!
